**Garage:** Total rebuilding costs range from €15,300 for a single attached garage to €27,500 for a double attached garage. This table is a guideline based on a typical speculatively built, estate-type house in the Dublin, Cork, Galway, Waterford, Limerick, North West and North East regions.

See important notes below.

- The figures shown in the table are a **MINIMUM** base cost guide for your house insurance.
- The figures assume a standard quality specification with normal foundations, timber frames or brick/block walls, concrete tiled roof, concrete ground floor and timber first floor, softwood flush doors and hardwood double glazed windows, painted plaster to walls, plastered ceilings, standard electrics and central heating. The sum insured should be increased to allow for better than average kitchen fittings, built-in wardrobes, finishes and any other items not normally included in an estate-type house.
- House contents such as carpets, curtains, furniture, etc., are not covered by the figures.
- No allowance has been made for the cost of outbuildings or patios. The figures do, however, allow for a concrete path around the house, for driveway and re-grassing and fencing.
- The figures allow for demolition costs, professional fees incurred in reinstatement and VAT at 13.5% on building costs and 23% on professional fees.
- The amounts included for professional fees have been calculated to cover the following services:
  - Building Surveyor/Architect: prepare working drawings and specification, and administer the building contract.
  - Chartered Quantity Surveyor: invite and examine tenders, process payments and agree final account. Engineer: advice on structural issues.
  - Fees associated with the certification of the house under the Building Control (Amendment) Regulations 2014.
- The costs are based on figures from March 2021.
